

We're welcoming biotechnology, life sciences, digital healthcare and research institutions of all sizes to join us on Novartis Campus – to be part of a new network where experts work side-by-side, connections are made, and ideas are progressed for the benefit of people around the world.

A place for collaboration

Our campus is designed to spark collaboration. It's an open, inclusive space, where experts inspire each other and discover new possibilities.

Working in Basel

The heart of European life sciences

Novartis Campus is set in Basel, the heart of Europe's life sciences community. It's a thriving hub of innovation, education and culture.

Surrounded by experts

Working in Basel puts you amongst the world's most highly-qualified scientists, global pharmaceutical companies and groundbreaking start-ups.

Attract emerging talent

With leading academic institutions and a global scientific reputation, Basel is where the next generation of innovators is, and where they want to be.

Europe at your door

Set on the borders of France and Germany, Novartis Campus is within easy reach of leading institutions, with direct flights to major European cities.

Getting around Basel

Travel to Novartis Campus by bicycle or public transport takes just 10 mins from the city centre, 15 mins from Basel SBB and 20 mins from BSL Airport.

A place for knowledge

On campus, you're perfectly placed to harness the knowledge, resources and experience from the diversity of people and organizations based here.

Facilities and services

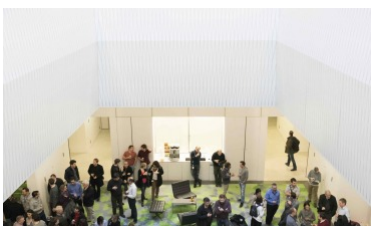

Equipped for discovery

Working on campus gives you access to a host of facilities and services, from meeting rooms and event spaces to maintenance and cleaning.

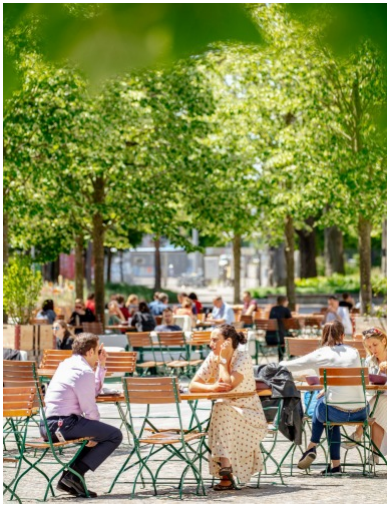

Meeting spaces

Every workspace on campus features sophisticated and modern meeting rooms, with the option to rent additional spaces when you need them.

Events

Make an impact with events at one of the spacious auditoriums, workshops and studios on campus, and get support from the dedicated events team.

Included tenant services

Tenants get all kinds of benefits, including maintenance, cleaning, site security and safety, mail services, waste removal, visitor parking and more.

Optional tenant services

Extra services available include stationery and refreshments, lab services, event room rental and employee parking. Subject to individual agreement.

A place for inspiration

Our campus is a place for enrichment, where you can be inspired by art, find space to think in calming gardens and have uplifting encounters.

Building 210

Workspace with the best views on campus.
